

As the year is going by, I have been sharing scholarship and grad information to our students as well as posting on social media. To make sure everyone has the access to information, I have created a sheet listing some of the scholarships that have been promoted with me to share and encourage FCS student to apply. This list does not include the scholarships that do not require application and are criteria based.

Things to help your child:

--If your child is taking a gap year, some of these resources may still be available for your child to apply next year—MD of Greenview, TC Energy, ATA, and others on ScholarTree and Alberta Student Aid

--Have the student access references—at least two. Letters are nice to have and are required for certain applications.

--Highlight leadership and volunteer initiatives—most scholarships for application purposes are looking at these two things very closely

--Financial need—This is a weird question to have on forms as it seems so personal and weird to be citing a “financial need” with something like post secondary. HOWEVER...POST SECONDARY COSTS FOR STUDENTS FROM A RURAL SETTING DOUBLES BECAUSE OF LIVING AWAY EXPENSES.

Even though many have been saving for this time, the savings of rural families does not go as far as those living in a major center.

---Proof of enrollment—Students may have to provide a receipt of tuition from their school to prove that they are in the school before the funds may be released—differs from scholarship to scholarship

--Staff members are always available to help students complete applications, essays, etc.

--Rutherford Scholarships—Applications open in August and vary –they calculate
