#### Small School Big Dreams

The goal with this career fair is to make a career day where the sky's the limit. I want to provide an opportunity for all students that's unlike anything we could've ever put together. A career day that shows students to dream big without limitations. In addition to showcasing your average career paths I want to have the more unconventional choices. For example professional athletes, politicians, musicians, celebrities, and more. It will be a way to inspire students not to limit themselves in what careers are available to them. It will also show people that just because you come from a small school you don't have to have small dreams. This moves our idea of a great school for all beyond our 12 years of education into the real world.

This event would take place over Zoom meets between the hours of 9:00am and 3:30pm in 30 minute time slots for each guest to speak about their career and answer any questions students may have at the end of your presentation.
